

Purpose

The purpose of designating IBE Fellows is to recognize, congratulate, and commend individuals who have made significant and unusual contributions to and demonstrated and achieved excellence in the field of Biological Engineering and the Institute of Biological Engineers.

Eligibility Requirements

- Fellows are to have a recognizable and demonstrable record of unusual and exceptional achievement and accomplishment in Biological Engineering. The achievement and accomplishment can be in the areas of industry, research, teaching, business, public service, technology development, technology innovation, or advancing the profession of Biological Engineering.
- Fellows are to be members of IBE for a minimum of five (5) years. The term of membership need not be consecutive.

Nomination Process

Submit nominations by Sept. 15, 2008 to:

Jerry Gilbert, Chair
Fellows Selection Committee
Office of the Provost
Mississippi State University
jgilbert@provost.msstate.edu
662-325-3742

Nomination documents:

1. Curriculum Vita;
2. Dates of membership in IBE;
3. A letter of nomination stating the specific accomplishments and achievements that distinguish the individual in light of the eligibility requirements; and
4. Letters of support from three (3) professionals who can attest to and affirm the significance and importance of the accomplishments and achievements.

Other Details

- Electronic submissions are required.
- Nominate yourself or a colleague.
- New awardees will be presented at the 2009 IBE Annual Meeting.
- Nominations will be reviewed and considered for three (3) consecutive years. Re-nominations after three years will be considered as a new nomination.
